Fire Alarm Stations.

The ringing of the bell within the signal stations, denotes the number of the station that gives the alarm, thus:—one tap, a pause, and three taps, another pause, and five taps—1—3—5—indicates that the alarm came from Box No. 135.

The State House and Fire Alarm Bells in the several Districts will strike the number of the fire districts *twice*, and the direction *four* times; each bell striking the direction from itself. Should the fire be in the vicinity of the State House, the bells in the boxes will ring incessantly.

In cases of general alarm, requiring the service of the entire department, the bells will be rung incessantly in quick succession, after having first signified the district in which the fire is raging.

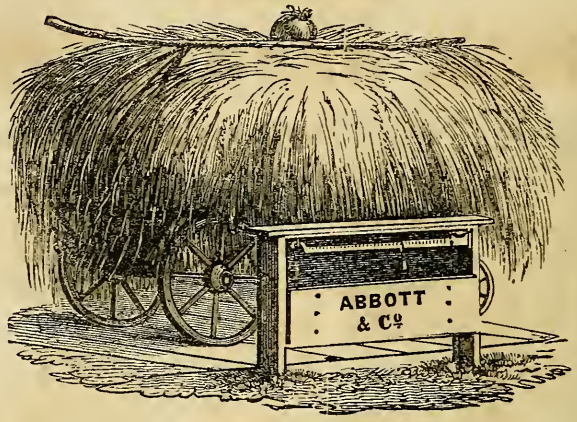
PLATFORM SCALES,



Suitable for Railroads and Canals,

AND FOR

Weighing Hay, Cattle, Coal, Ore, Iron, Cotton, Tobacco, Flour, Grain, &c.

Counter Scales, Weighmasters' Beams, Frames, Weights, and all kinds of Weighing Apparatus.

Five successive Premiums and Medals awarded, viz.: PENNSYLVANIA STATE AGRICULTURAL FAIR, and FRANKLIN INSTITUTE, in 1854; PHILA. COUNTY FAIR, NEW JERSEY STATE FAIR, and PENNSYLVANIA STATE FAIR, in 1855.

This Establishment has been long known as the oldest in the Country, its originator, **THOMAS ELLICOTT,** having made the first Platform Scale; and now, after a practice of some thirty years, with increased facilities, are enabled to offer not only the researches of the former named gentleman, but all modern improvements, together with their own modifications and inventions, and feel warranted in saying that they can furnish a superior article, in all respects, to that offered by any other establishment, from the LARGE WEIGH LOCK and RAILROAD SCALE, of one hundred feet or more in length, to the SMALL COUNTER BALANCE, at from 25 to 50 per cent. less in price.

Each Scale is Warranted, and if not approved, can be returned free of cost.

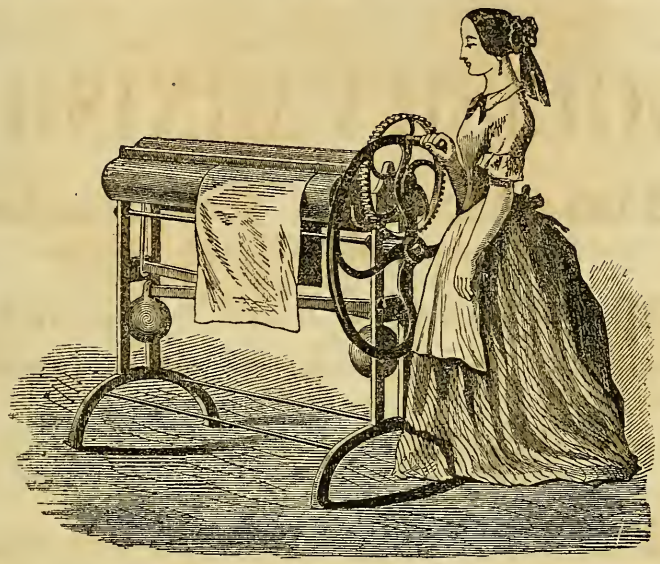
R. A. STRATTON'S
PATENT
MANGLE OR CALENDER.

FIRST PREMIUM AWARDED BY THE FRANKLIN INSTITUTE, 1858.



This Mangle is designed with a view to meet the great deficiency which has long been felt in this article of household requirements. The fact is well known, that Mangles heretofore have been exceedingly cumbrous, expensive and inefficient. This has induced the inventor of the House Mangle to introduce an article to overcome the difficulty in every respect. He is satisfied that a trial of his machine will prove its advantages over anything yet introduced, as

A SUBSTITUTE FOR IRONING.

ADVANTAGES OF MANGLING BY THIS PROCESS.

The great pressure obtained by this arrangement, completely flattens the thread, and produces a gloss, at the same time lays down the fibre, so that the pieces will keep clean longer, and preserve their whiteness, so desirable.

The saving of time and fuel will be found to compensate satisfactorily for the investment.

BRANDYWINE MILLS, *Aug.* 1854.

We have now in operation in our Mills one of McFarlan & Carpenter's New Bran Dusters, and believe it is preferable to any other now in use. We have Johnson's also, and Frost and Monroe's in operation here. We recommend the said Duster, with great confidence, to the Millers; believing it to be a great acquisition to the machinery of a Mill, as it thoroughly separates the flour from the bran, which cannot be done by the ordinary process of Bolting. The power to drive it is very small and of no consequence, not being perceptible in our Mills.

THOMAS ARMITAGE'S

ELECTRO-MAGNET LIGHTNING RODS.

BEWARE OF IMPOSTERS AND SWINDLERS.

In order to prevent a repetition of the FRAUDS so extensively carried on during the last two years by a set of scoundrels who travelled over the country, and represented themselves as my agents, and in many instances exhibited forged certificates of agency. I now give NOTICE that all my agents carry with them PRINTED FORMS, authorizing them to act as my AGENTS, legally executed and acknowledged before Alderman HENRY SIMPSON, of Philadelphia; they have also my name and place of business on their wagons. I believe them all to be strictly honest, and fully acquainted with the business of putting up Lightning Rods, which they will do at as low a price as they can be obtained at the factory. As many schemes have been resorted to, to defraud myself and the public, purchasers should be on their guard; thousands have been grossly deceived by purchasing useless articles in the shape of Lightning Rods, having pewter, lead, copper, zinc, and iron points, either, or all of which are good for nothing. My ELECTRO-MAGNET LIGHTNING RODS, have been examined by many of the most scientific men in the world, who have pronounced them to be the only rods, that they have ever seen, which are calculated to save lives and property from destruction by Lightning—among these are Professors Henry M'Murtrie, James M'Clintock, Walter R. Johnson, of the U. S. Patent Office, E. J. Carr, Dr. T. E. Waller, and many others who recommend them in the highest terms of approbation.

All orders, WHOLESALE AND RETAIL, will meet with prompt attention. Spire Rods and Scrolls made to order. Cardinal Points, and all kinds of weather Vanes for sale cheap.

JUST PUBLISHED,

THE MORMON BIBLE.

One Vol. 12mo., 400 pages, cloth. Price $1 25.

This edition of the "Book of Mormon" is an exact reprint of the third American edition, published at Nauvoo in 1840, under the official sanction of the leaders of the Mormon Church. The work has been, for many years past, entirely out of print, and unobtainable in this section of the world, and the correspondent of the *New York Times*, in a communication recently published in that paper, stated that he had made repeated endeavors to obtain a copy of it in Deseret, but had failed to procure or even to see one.

It would appear from the above statements to have been the policy of the rulers of the Mormon Church to suppress the book entirely—a powerful reason for which suppression may be found in the fact that polygamy is strongly denounced in numerous passages throughout the entire work.

The above facts, together with the interest which attaches to this curious work, not only as a literary production, but as the recognized standard of religious faith of a people whose history is attracting great attention, *and a firm conviction that the most powerful means of destroying the monstrous religious delusion embraced by so many of our fellow beings in Utah and elsewhere, would be to give a wide circulation to the book*, have appeared to the publishers a sufficient reason for re-issuing it.

EXTRACTS FROM

OPINIONS OF THE PRESS.

"The Mormon Bible itself, separate from the peculiar interest which attaches to it on account of the important part it has performed, and is now performing in the history of the present century, will be found interesting to most readers for its terse language, original ideas, and the many moral lessons inculcated by its pages. It is the duty, as it should be the pleasure, of every intelligent American citizen, to be thoroughly acquainted with all the incidents of his time; and none can fairly claim to be so on the Mormon question, without a careful perusal of the so-called Bible and its auxiliary circumstances."—*New York Sun.*

"This is a literal reprint of the Mormon Bible, as it was first given to the world by the prophet Joseph Smith. The rapid increase of the sect that receives this book as the work of an inspired author, and the importance of the events in which the leaders of that faith are prominent actors, has created a demand for the 'Book of Mormon.' The relations which the National Government has lately sustained to this strangely infatuated people naturally excited a curiosity to know definitely the teachings of the founder of the faith. The 'Golden Bible' is here presented in the language in which Joseph Smith presented it to his people. It has, we suspect, since then undergone many changes, as we look in vain for the authority of many things now practised by the Saints. The public will hardly believe that not one word can be found in the original which justifies the practice of polygamy. That institution appears to be an after-thought—an interpolation of the successors of Smith, who probably realized the necessity of adding something that should excite the passions more than the reason. The success which has crowned the efforts of the Mormon missionaries—for it is not to be denied that they have been successful—is probably more due to the interpolations which they have engrafted on the original system. The gratification of an unbridled lust has led thousands across the ocean and the desert to the valley of the Salt Lake who would never have comprehended the rhapsodies of Joe Smith. As a curiosity, the 'Book of Mormon' will command attention."—*Albany Statesman.*

"This is the *bona fide* Mormon Bible. This singular sect, however, acknowledge the authority of the Jewish Record and the New Testament, the Book of Mormon being looked upon as additional, and containing the history of a tribe driven to America by the confusion of tongues at the Tower of Babel, and also of the 'lost tribe,' as it is called, of the Israelites. Both the Mormon and the Gentile version of the origin of the book is contained in the preface, and the reader is left to decide between the two. We have looked its pages over some, and do not find aught in its teachings that can be considered immoral, or that could be construed into sanctioning immorality. The Mormons appear to have derived the excuse for their beastly practices from the Jewish Record, all of which are pointedly and severely denounced in the Book of Mormon.

"In several places the severest penalties are denounced against licentious practices of all kinds. So it appears that the Mormons are at present suffering for their sins, in accordance with the teachings of their own Bible, as the people, of whom the book assumes to be a record, suffered and perished of old. They are guilty of the very practices the teachings of the book were intended to prevent."—*New York Dispatch.*

"This is a reprint of the so-called sacred 'Book of Mormon,' which, in the hands of Jo. Smith, became the revelation of a new religion, the Koran of the Yankee Mahomet. The work has been a long time out of print. The theory of its origin is, that the volume was originally written by a Rev. Mr. Spaulding, of Ohio, as a pastime. After Spaulding's death, the manuscript was dishonestly procured by Sydney Rigdon, a deposed clergyman of Pennsylvania. Rigdon appeared in Palmyra, in this State, about the time of Smith's pretended unearthing of the mysterious plates, the fraud was concocted between them, and Spaulding's romance was published as a translation of the inscriptions on the golden plates. This is the story that has long been current of the origin of this Bible. We do not believe it. There is no internal evidence of such a fact; and no other external testimony except a letter of the widow Spaulding, claiming it in behalf of her deceased husband. Such a book was never written for amusement, or as a work of imagination. It was intended for deception, and as part of a great system of imposture. The book has 380 compact pages, and is handsomely executed."—*Atlas and Argus, Albany.*
